

### Forum on Librarianship 4

- Long overdue, glad we came, learned a lot.
- Discussion hasn't changed a lot over the past 30 years, but it is important to have the discussion.
- Program enhanced more with greater effort to get input from minority groups, particularly Spectrum scholars.
- Need more voice from younger more recent graduates, too, although one member stated most value came from older panelists.
- Would like to see more recognition of needs of school library media specialists and youth services librarians in future forums. Focus may demonstrate advocacy and support for these youth services professions.
- There isn't the capacity to train enough school library media specialists to meet the demand within ALA accredited programs.
